The action of the game takes place in the mountain kingdom of Callasia, a land of spectacular forests and rolling meadows. Thousands of years ago, dwarfs carved the mountains into dwellings and fortifications in an effort to survive the turmoil that came with the Great Callasian War. Now that the conflict has ended, the dwarves that remained behind have sought to rebuild their land, establishing new towns and new fortresses where they can trade, train new heroes, and perfect their defenses in preparation for the coming chaos. Although the war left much of Callasia in ruins, the dwarves have worked hard to rebuild their old glory, and have already put plans into motion for new heroes to join their forces. The game features 4 new playable factions, each lead by a mighty hero with a unique focus on military, economic, or defensive strategy. The 4 factions are the Stoneborn, led by the fearsome Swordmage Velkazar; the Cavernfolk, led by the zealous Rivalen; the Langar, led by the dauntless RunnerAlduin; and the Lutari, led by the cruel Galantha. The game's campaign features 9 new levels, all requiring a degree of strategy and teamwork in order to succeed, and all of which offer new tactics for the players. Game Features: * Challenging, new gameplay featuring 4 new playable factions and 9 new levels * Fully-realized, turn-based combat system, with all kinds of unique units and Hero Traits for each of the 4 new factions * 12 new cards for strategic tactics and will-pushes * All new Artillery System based on Impact Events, each representing a different gameplay scenario * Unique Campaign with 9 levels * Epic 4-Player Skirmish Maps * New Heroes: Annoyance, Flamestrike, Silo, Spear, and the new comer: Guardian! * New Enemies: the Majestic Minotaur, the Dreadful Cavespawn Game Screenshots & Trailer: ...The building at the corner of Talmon and Freemont Sts. has been vacant for almost a year. 4 million square feet, an office building that housed at least 60,000 workers, and yet now sits abandoned. Crystar slowly pulled her cock out of Nate's mouth, his eyes focusing back on his lap. A warm breath spilled onto his lap from Nate's warm mouth, and he shuddered as he felt that warmth. "You better go fuck her." Crystar said to Nate, signalling that Nate was the last person she wanted doing that. Nate jumped off the bed and left the room, leaving Crystar and Mephis alone in the bed. Crystar pulled her shirt up above her breasts, letting her nipples peek out. "Go fuck her. I want you to. You should at least make her cum." Mephis stood up and nodded. He couldn't believe that Crystar would leave him alone with such a sexy woman, but if she wanted him to go fuck her in front of him he would do that without any questions. He walked over to the bed and sat back down, pulling her shirt off the ground and tossing it back onto Crystar's bed. Mephis started to slowly rub his hand over her bare back, quickly descending from her back to her ass, stopping at the button of her pants. Mephis slowly slid down to her ass, his balls making contact with the tight muscles. Crystar gave a subtle groan as the feel of his balls touching her hind, and she closed her eyes, slightly biting her bottom lip. "Here she comes, turn around and face her..." Mephis said as he looked behind her and over to the dresser. Crystar gave a slight giggle as she turned around, her ass sticking out as Mephis began to slowly rub his cum-covered fingers over the crack of her ass. She tilted her head slightly as her nipples poked out from her shirt. "I have something special for you, and I want you to show it to her." Crystar said, pulling her shirt up with both her hands and letting her breasts free as her nipples began to poke the shirt. Mephis moaned a little at the sight of her nipples and slowly went between them. "Mmmm..." He continued his hands on her tits and her nipples were still in the shirt, jutting out as they said. "Well, I'm glad you're... letting me suck on... them." Mephis said as

Unlike the previous two games, The Game Ocean offers an advanced level of gameplay with updated visuals, an expanded, fully voiced cast of characters, and content spanning four continents. -Game Overview- The Game Ocean is a 3rd person action adventure game about Joel, a young boy from an unknown island about to embark on a grand journey of discovery, taking place over 4 continents (Asia, Europe, Africa and America). Joel has been through a lot in his short life on this island. He has lost both his parents, and is now being looked after by his grandfather, Commander Jerome. The good news is that Jerome has been chosen as one of the few to be invited on board the research vessel, "Dungeon", for a simple 3 months cruise. The bad news is that Jerome was not chosen by the way he died, and he took the death of his son with him. Joel has learned the hard way not to trust people, but he is trapped on this trip, and he will meet more and more interesting characters, each with their own secret history. Joel also has to help the team discover a great secret about the island - an ancient legend. -What Does It Look Like?- The Game Ocean offers you a hand-drawn world, which will plunge you into different and unique environments, ranging from a bustling seaport, to a deserted tropical forest, a grand old citadel and the rainforest. Joel himself looks like a creepy mix of Bruce Lee and Pinocchio, with his rotten teeth and bloodshot eyes. His body joints are made of wood, and his clothes are full of pockets and pouches. As you explore the game you'll meet a variety of characters - Joel's best friend, Sandra, an amusing monkey named Pooch, the Captain, the Crew and even some funny oddball characters that will be a unique treat. Most of the time you'll be using his fists, but Joels unique fighting style will allow him to unlock alternative weapons and magical attacks. -How Do I Play?- Gameplay in The Game Ocean is 3rd person and can be described as a mixture of action, RPG and exploration. You'll be able to fight many enemies, and explore the world via Joel's trusty backpack which holds your iron fists, iron shield, magic potions, food, and even his raincoat, which he uses to free himself from
