You are passing a list of strings (lines of a string)  
into a method that expects a list of integers. That  
means you are trying to cast string values into  
numbers, then compare them. The string values  
don't compare equal to the number values you  
are trying to cast, since string are not the same  
as numbers. UNPUBLISHED UNITED STATES

Try adding a Debug.Print after the if condition and before the

InStr(xml.body.innerHTML, "probform") = 0 Then

If msg = nothing Then msg = "Welcome" Else
